MARVEL AVENGERS S.T.A.T.I.O.N. made its debut in New York in July 2014, and has showcased the Avengers worldwide in 24 cities (12 countries) including Paris, London and Las Vegas. Guests will experience the Marvel Cinematic Universe as they journey through this high-energy facility, exploring their favorite characters and villains, discovering intelligence, technology and the cutting-edge science of the Avengers by experiencing interactive challenges and simulations. In addition, guests will get an up-close look at original costumes, props and film footage straight from the big screen. As Tokyo will be the 25th city to host this event, along with Kyoto, the show will be an expanded version, which will include elements from Phase 4 of the Marvel Cinematic Universe, and will feature costumes and props from some of the latest releases from Marvel Studios!

The exhibition will take place in July in Kyoto as well. The details will be provided later.
